The future of intelligent health

anomalie

The future of intelligent health.

Founded by athletes and technologists, our mission is to move healthcare from reactive treatment to proactive optimization, helping people perform, recover, and thrive every day.

We design products that make sense. Clean, minimal, and science-backed. Because performance starts with clarity.

We started anomalie because we couldn't find what we needed – products that help us go further.

Everything we make is pure by design, proven by science, engineered for real output. Function first, and form that follows you without distractions.

Introducing Supersalt

● Mild Lemon Flavour

High-Performance Electrolytes for endurance athletes and everyday high performers. Supersalt is a clean, natural electrolyte system designed for peak output. It combines science-backed minerals for hydration, muscle function, and rapid recovery.

- ⚙️ All four essential electrolytes in optimal doses
- ⌚ Clean and balanced taste profile
- 🏃 Engineered for endurance and recovery
- 🌿 0 carbs, 0 sugar
- 💧 Pure by design, proven by science

🇦🇹 Produced in Austria

Ingredients

800MG

Sodium

Maintains fluid balance

Enables nerve signal transmission

Regulates blood pressure

300MG

Potassium

Reduces muscle fatigue

Supports muscle contractions

Balances blood pressure

100MG

Magnesium

Improves muscle recovery

Enhances brain-to-body communication

Supports energy production

100MG

Calcium

Strengthens bones and teeth

Supports muscle function

Aids nerve signaling

10MG

Citric Acid

Enhances mineral absorption

Adds a clean, tart flavor

Supports electrolyte balance

10MG

Malic Acid

More rounded acidity profile

Balances sweetness

Increased heat-stability

Benefits

15%

time-trial performance

Nutrients. 2018 Oct 10;10(10):1470.

2x

Faster rehydration

Nutrients. 2021 Aug 25;13(9): 2933

10bpm

faster heart rate recovery

Biol Res Nurs. 2021 Oct;23(4):676-688

20x

Reduced inflammation markers

J Int Soc Sports Nutr 15, 27 (2018)

0%

drop in anaerobic power

J Int Soc Sports Nutr 15, 27 (2018)
